BLUE BEAUTY

PAINT COLOR:

STRATTON BLUE BY BENJAMIN MOORE

Amanda Reynal, owner of Amanda Reynal Interiors, chose this hue because “there is no easier color to decorate with than blue—it can be bold and striking or soft and soothing.” She adds that blue draws from “the most beautiful aspects of nature and can evoke feelings from peacefulness to inner strength. The range of blues varies from sky to sea and everything in between.”

What’s more, blue is “a neutral in its own right” that can be used in both modern and traditional decor, she says. The color “looks crisp and nautical against white, regal and elegant paired with gold, or preppy and fun paired with pink or green. Its versatility is endless and it is a classic, tireless color.”
